Purpose

The Meridian Township Parks and Recreation Department is requesting proposals for professional services for the renovation of the Central Park Pavilion. This pavilion has been serving hundreds of visitors each year for the past 45 years. Upgrades to the current structure are a high priority at this time in order to keep up with the demand for use of this structure and the surround park.

Required upgrades include:

- New tile floor in both restrooms
- Add two stalls and one additional toilet in the women’s restroom
- Custom doors added to voids to create storage space
- Replacement door for current storage room
- Replace ceiling above the seating area
- Replace all soffit, fascia, gutters and downspouts
- Replace all T1-11 boards and add additional boards to the interior of those structures
- Create a half-wall for viewing of the soccer fields on the north and south end that are facing west
- Replace lighting fixtures with new, LED fixtures throughout
- Add sliding barn doors to the north and south end of the pavilion to allow closure of both ends
- Desired native landscaping around the pavilion
- This project will require architectural drawings for the structural renovations

Background

Central Park's history dates back to 1966 when the first parcel of land was purchased. In 1978, the pavilion was constructed to serve as the original Meridian Township Farmer’s Market. More land was acquired in 1986 and 2005 expanding Central Park to be 188 acres. Central Park is where you will find the Meridian Township offices, the Public Safety Building, the Historical Village and the Nokomis Learning Center. Other amenities in the park include athletic fields, a fishing dock and pond that is regularly stocked, nature trails, picnic areas, a playground and so much more. Central Park continues to grow to accommodate the needs and interests of the community. The original pavilion still stands sturdy, but is in need of some major upgrades to ensure visitor enjoyment for years to come.
