

Lake Lansing Watershed

Special Assessment District Advisory Committee

Scheduled Treatment Notice

Thursday, August 1, 2024

HERBICIDE TREATMENT: Lake Lansing is scheduled to be chemically treated on Thursday, August 1, 2024. The actual application date and time is subject to change because it is dependent on a number of factors including weather.

Please see attached Posting Map and Posting Notices for details and restrictions. These are the same notices that will be posted along the shoreline on the day of application.

This treatment is slightly different, in that, there are very small treatment areas and two different chemical combinations are going to be used. Because of the lack of swimming restrictions and the small area, the entire lake will not be posted the day of the treatment. The treatment company, PLM Corp. stated; "None of the products we will be using have swimming or water contact restrictions following treatment on the EPA label, and no restrictions exist more than 100 feet from a treatment area. So, if the township allows it, we will only post the treatment area." The township has no additional posting conditions.

The map shows four (4) separate limited areas generally described as Dam area, Columbia Street, Shaw Street, and Hickory Street. Columbia and Hickory Street areas get the treatment with Diquat in addition to the Procella and Adjuvant. Each area will be posted with the appropriate Notice.

It appears as though they are treating with the same chemicals that have been used before, consult the posting notice for the actual details.

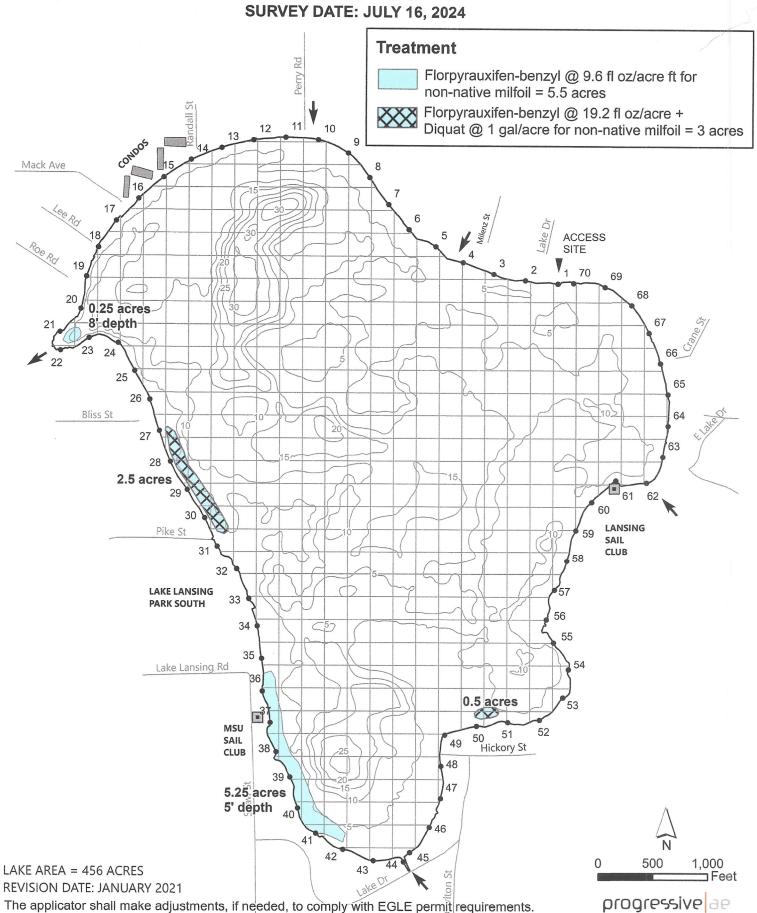

The lake will be surveyed a few weeks after treatment to determine the effectiveness of the treatment and to assess the need for harvesting. Remember, Milfoil is best not harvested until after treatment has succeeded but before it falls.

This notice and alert through Nextdoor and Facebook have been processed for the Lake Lansing Watershed Special Assessment District Advisory Committee by Meridian Township. This notice as well as future notices can be found on the Meridian Township web site; website.

Thank you,

Lake Lansing Special Assessment District Advisory Committee = 1 ACRE GRID

LAKE LANSING INGHAM COUNTY, MICHIGAN TREATMENT MAP SURVEY DATE: JULY 16, 2024

NOTICE

DO NOT REMOVE POSTING SIGNS OR MAPS UNTIL ALL WATER USE RESTRICTIONS HAVE EXPIRED

PLM Lake & Land Management Corp. Certified Applicator(s) Conducting Treatment: Steve Hanson

This area of Lansing, Lake was chemically treated on 8/1/2024 for the

control of an aquatic nuisance (Weed Treatment) under:

PLM Lake & Land Management Corp. Certified Applicators: Salvatore Adams, Preston Adgate, Samuel Bailey, Hailey Birchmeier, Jason Broekstra, William Conklin, Hannah Cornell, Jaimee Desjardins, Nathaniel Draper, William Ducham, Holden Elsner, Jeff Fischer, Tate Gardner, Justin Gorczewicz, BreAnne Grabill, Dustin Grabill, Noah Hanson, Steve Hanson, Kyle Heath, Daulton Higgins, Jake Hunt, Garrett Johnson, Pierce Johnson, Adam Jones, Sophia LaRosa, Michael Pichla, Elijah Quinn, Reese Ransom, Riley Ransom, Eric Reed, Colton Risner, Raquelle Robbins, Eric Roberts, Cory Robinett, Shelby Robinett, James Scherer, Alison Schermerhorn, Casey Shoaff, Lucas Slagel, Keith terHorst, Jeff Tolan, Andy Tomaszewski, Dennis Vangessel, Andrew Weinberg

The chemicals used for Aquatic Nuisance Control are registered by the U.S. Environmental Protection Agency and the Michigan Department of Agriculture. The potential for damage to fish and other non-target organisms is minimal provided that the product is used as directed on the product label and the permit. To minimize the possible effects on health and the environment, the treated water is restricted for the above purposes.

Method of Application: Chemical application will be made via boat, back pack, and/or land vehicle applying liquid surface products by surface spray and/or injection. Granular product application will be surface broadcast.

Authority: Parts 31 and 33 of P.A. 451 of 1994, as amended
