The Land Preservation Advisory Board will be meeting on August 14th at 6 pm for a ribbon cutting event at Davis Foster Preserve (5120 Van Atta Road in Okemos). The ribbon cutting is taking place to celebrate new rule signage, name signage, and name changes at several preserves. It is also an opportunity for board members to discuss remaining signage improvements for land preserves, as well as proper recreation of preserves and ordinances.

After the ribbon cutting takes place a wildflower walk will be led by staff in the Davis Foster Preserve. Meridian Conservation Corps volunteers will be invited to give them an opportunity to meet board members and discuss the stewardship efforts they help implement across Township parks and preserves. We hope you can join us for this special occasion at one of our most beloved preserves in the Township.
