CATA Management

Good morning,

From the excessive payments to attorney's and now a lack of process and controls in the Finance department, what action is the township taking to ensure our millage dollars are being spent appropriately? There are many items in the CATA organization needing addressing to streamline inefficiencies and stretch tax payer dollars further.

It's going to be real hard to support a future CATA tax millage due to their mismanagement.

Fwd: Re: Neighborhood Platt mat

Dear Meridian Township board members:

Please advise of any rules or laws that would prevent a neighbor and the neighbor's invitees from using the Ingham County Road Commission's right of way to make the lawn in front of my home a personal parking area.

I am forwarding the email to you that I have sent to the Meridian Township Assistant Chief of Police and the Meridian Township Director of Community Planning Development. Please read the forwarded email and advise (via email) of what a homeowner can do to prevent this type of behavior. A simple verbal request and calling the police doesn't work to prevent my neighbor and my neighbor's invitees from parking on my lawn.

Thank you,

Gary Harper

Date: October 22, 2017 at 7:50 AM Subject: Re: Neighborhood Platt mat

Dear Assistant Chief of Police Plaga:

Thanks for sending me the neighborhood platt matt.

It is my understanding from our conversation on October 20, 2017, at approximately 0830 hours, that anyone who chooses to park on my lawn (fifteen feet from the edge of the road [Marlborough Drive] towards my home) has "the right of way" to do so? Please briefly explain this via email and were you able to contact Ingham County (or the Ingham County Road Commission) regarding this matter?

I have asked my new neighbor's invitees on more than one occasion to not park their vehicles and trailers on the lawn in front of my house. Vehicles with decals (of a giant middle finger protruding upwards on the back of a truck tailgate) most certainly do not represent anything that I want on my property. After my neighbor's invitees failed to understand my simple request to stay off my lawn. I contacted the Meridian Township Police Department and the Meridian Township Director for Community Planning and Development (Mark Kieselbach) for help in preventing my front lawn from becoming a parking lot and an area for rubbish. I have "No Trespassing" signs posted to convey that I do not want my yard used as a parking lot nor as a an area to advertise decals that do not represent my thoughts, beliefs, attitudes, and principles. I have photos of the wood pieces that were strewn through my entire front yard. And I have the actual wood pieces as evidence to anyone who needs to see it. I spent hours on August 13, 2017, picking up these pieces of wood so that I could mow my lawn without damaging the mowing deck of my lawnmower. I have this rubbish if anyone needs to see it. Who would do such a thing to my lawn is still a mystery. I did call the Meridian Township Police Department to report it on August 12, 2017.

I will be contacting several agencies and elected officials to explain my position on this matter and ask them specifically if there are any rules or laws of common sense that could possible prohibit this type of behavior, and if there are no rule or laws of common sense to prohibit this type of behavior, could we possibly make some new rules and laws of common sense to help homeowners who do not want the front of their homes turned into someone else's personal parking area.

I appreciate you and all of the Meridian Township Police officers who have spent time on this matter to try and help me. I am very grateful for the professionalism that each of you exhibited while trying to help me with this matter.

I do hope that we can all eventually get a clear understanding that I do not want my lawn (the fifteen feet Ingham County Right of Way in front of my home that I maintain as a lawn, not a parking area) to be anyone's (neighbor and neighbor's invitees) personal parking area.

I am including the sections of MCLA to support my position:

750.552 Trespass upon lands or premises of another; exception; violation; penalty; "process server" defined.

Sec. 552.

- (1) Except as otherwise provided in subsection (2), a person shall not do any of the following:
- (a) Enter the lands or premises of another without lawful authority after having been forbidden to do so by the owner or occupant or the agent of the owner or occupant.
- (b) Remain without lawful authority on the land or premises of another after being notified to depart by the owner or occupant or the agent of the owner or occupant.
- (c) Enter or remain without lawful authority on fenced or posted farm property of another person without the consent of the owner or his or her lessee or agent. A request to leave the premises is not a necessary element for a violation of this subdivision. This subdivision does not apply to a person who is in the process of attempting, by the most direct route, to contact the owner or his or her lessee or agent to request consent.
- (2) Subsection (1) does not apply to a process server who is on the land or premises of another while in the process of attempting, by the most direct route, to serve process upon any of the following:
- (a) An owner or occupant of the land or premises.
- (b) An agent of the owner or occupant of the land or premises.
- (c) A lessee of the land or premises.
- (3) A person who violates subsection (1) is guilty of a misdemeanor punishable by imprisonment in the county jail for not more than 30 days or by a fine of not more than \$250.00, or both.
- (4) As used in this section, "process server" means a person authorized under the revised judicature act of 1961, 1961 PA 236, MCL 600.101 to 600.9947, or supreme court rule to serve process.

750.552a Filth, garbage or refuse; unlawful to dump, deposit or place on property of another.

Sec. 552a. Any person who shall dump, deposit or place any filth, garbage or refuse on the grounds or premises of another, without the specific permission of the owner thereof, shall be guilty of a misdemeanor.

History: Add. 1954, Act 27, Imd. Eff. Mar. 31, 1954

I look forward to your answers to my questions in the first paragraph of this email. I also welcome any thoughts, comments, or observations that you have from my email to you today.

11. HEARINGS

A. Sleepy Hollow Proposed SAD - Public Hearing and Resolution #2

Director Perry introduced and summarized the proposal of providing public water and sewer into the Sleepy Hollow Neighborhood and adjacent area.

Supervisor Styka opened the Public Hearing at 6:27 P.M.

Public

Tom Pinnavaia 5901 East Sleepy Hollow Lane. Mentioned working with Planning Department, making sure the drainage in the neighborhood is addressed. The question that was not answered; who is responsible for maintaining the drainage district adjacent to the road? Standing water undermines the road and is responsible for part of the deterioration of the road. Drain Commission or Road Commission should be brought in on these issues.

• Staff and Board Discussion:

Director Perry stated that the ditching is maintained by the road commission. If the ditches take on additional water from the neighborhood, then the Drain Commission may get involved. Road fund may redo Sleepy Hollow East and West to make sure the ditches flow the right way and make the proper changes to the ditches.

Trustee Deschaine mentioned resurfacing Sleepy Hollow Road was one of the roads planned to be resurfaced, and asked that it will happen in tandem with the water and sewer work. Director Perry confirmed that it made more sense to do it while the water and sewer service was being brought into the neighborhood.

Supervisor Styka closed the Public Hearing at 6:31 pm

B. Mixed Use Planned Unit Development ordinance (MUPUD)

- Board member would like recommendations from staff to get technical things out of the way
- Board member belief that pre-application should be made mandatory
- Amenities are not articulated well in the ordinance, the amenities are too broad
- Make the amenities 1% of the project cost to translate that tiny amenities are not wanted, but significant amenities should be proposed
- Put a dollar figure on the amenities to make sure that these are significant investments
- Pervious parking added under the environmental amenity, should be encouraged
- Board has authority to say yes or no to any proposal, or to any aspect of a MUPUD

- Board member view that the Board has a difficult time saying "no" or requesting a change from the applicant in their development proposal, such as decreased density
- Board member belief that increased MUPUD application costs due to need for revisions should not be a reason used by some Board members to simply "go along" with the developer
- Board member perspective that multiple meetings, conceptual drawings, and proposals should be encouraged by the board, not stifled, to encourage the best kinds of development
- Viewpoint that board members should not be pressured to move very fast through the approval process, it takes time to get quality developments that will last for decades
- Board member belief that the MUPUD intent was to come up with something that the Board saw in advance, to save the developer energy, time and resources, and promote what Meridian, as a community, wants to encourage
- Board member wants more information on how a MUPUD project is defined
- Board member view that the MUPUD should not allow existing commercial property to be included a new development proposal as that results, unfairly, in greatly increased density
- Board member belief that this loophole, of allowing inclusion of existing commercial developments, was not intended in the ordinance
- Board member suggested the concept of MUPUD definitions be re-evaluated, as to not use false accounting and gives bonuses that do not bring value back to the community
- Board member suggest amenities be re-evaluated, they can be looked at in different ways and suggested a brainstorming session for the community
- Amenities could be ranked using metrics
- Board member belief short decision-making time-frame Board imposed on itself was shortsighted, community needs more time to analyze complex development proposals
- Dwelling units per acre need to be examined, including multi-family dwelling units
- Off-street parking issues, benefits of shared parking, parking is complex issue
- Adopting a subsection within the MUPUD to address form-based code, to encourage commercial to go on ground floors, can be an appendix or part of the ordinance
- Maintaining ordinance flexibility is important to get proposals going
- Board member wants more specific amenities listed in the 1%
- Board member belief that developers are going to go elsewhere if we don't keep a consistent schedule for approvals, and if the Township legislates the process too much
- Infill development should be encouraged rather than suburban sprawl
- The climate sustainability plan assists with identifying valuable amenities and provides for a better definition of what the township needs in the PICA areas
- Form-based code is good to work on with the MUPUD, but do not want to over-dictate how the Township gets there, MUPUD was created to deal with non-conforming properties
- Environmentally parking is the definition of sprawl, not counting existing parking or buildings in a MUPUD is an anathema to the concept of the MUPUD
- Creating less parking encourages people to use public transit, designing a community where residents don't need cars and encourage climate sustainability types of development
- Looking at the adjacent residential and commercial properties, and adjacent parking, is critical
- One effective way to reduce parking is to not excessively overbuild in MUPUDs
- Overdevelopment can be reduced by eliminating "false density," which are density bonuses given to developers that should not be given to them due to inflated project boundaries
- Need to examine the businesses surrounding the proposed MUPUD, look at all factors of the adjoining properties, but do not increase the number of residents
- Can use modified parking requirements due to people's working schedules and office hours
- Caution when looking at parking reductions in MUPUD proposals, not everyone works 9-5
- Many families live in the area and cannot carpool, or inability to use public transit
- Limiting parking will not promote young families to move into the area
- Belief that if an establishment doesn't have a lot of parking, people will go elsewhere
- Residents don't plan to "not have vehicles," Meridian is not an urban area, but a Township
- Director Kieselbach stated many amenities have been brought up and need to be looked at and streamlined, put amenities into categories
- Parking structures are expensive compared to some other amenities that are included in the ordinance

RE:

Marriott Hotel Liquor License

PHG Land Development, owner of the property slated for a new Marriott Courtyard Hotel at 3545 Meridian Crossing Drive, is requesting Township Board approval as part of their application to the State of Michigan for a Resort B Hotel license to sell beer, wine, and spirits at a restaurant in the proposed hotel and to sell beer and wine in the hotel gift shop. The Michigan Liquor Control Commission (MLCC), under authority from the Michigan Department of Licensing and Regulatory Affairs (LARA), reviews and issues the licenses. A certified copy of a resolution of the Township Board approving the license request must be included in their application to the MLCC.

The site plan (SPR 16-10) and special use permit (SUP #16011) for the four-story, 64,000 square foot Marriott Courtyard Hotel with 97 rooms was approved in 2016. A building permit for the project has been submitted and is currently under review.

The Township Board is granting local approval of the Resort B Hotel license for PHG Land Development, which will be submitted to the MLCC along with other required application materials. The MLCC has final approval on issuance of the license.

• MOVE to adopt the resolution approving the Resort B Hotel liquor license for PHG Land Development to sell beer, wine, and spirits at the proposed Marriott Courtyard Hotel at 3454 Meridian Crossing Drive.

Re:

Donley Elementary School

East Lansing Public Schools will be rebuilding Donley Elementary and has asked if the Township would provide building inspections for the construction of the new building. Donley is located in the Township at the southeast corner of Lake Lansing Road and Hagadorn Road. The State Construction Code delegates the plan review, permitting and inspections of school buildings to the Bureau of Construction Codes unless the school district and local unit of government request to have the construction project done by the local building department. In order for the State to approve the request both the school district board and the governing body of the local unit of government must certify registered code officials, inspectors and plan reviewers will conduct plan reviews and inspections of the building. The Township has registered code officials, inspectors with the City of East Lansing.

A motion to authorize making a request to the State to delegate the plan review and building inspections to the Township has been provided for the board's consideration.

MOVE TO AUTHORIZE THE TOWNSHIP MANAGER TO SUBMIT A REQUEST TO THE MICHIGAN DEPARTMENT OF LICENSING AND REGULATORY AFFAIRS FOR THE DELEGATION OF SCHOOL PLAN REVIEW AND INSPECTION AUTHORITY TO THE CHARTER TOWNSHIP OF MERIDIAN BUILDING DEPARTMENT.

Section 61 Review - Land Preservation purchases

The Land Preservation Advisory Board (LPAB) is currently considering the purchase of five different properties around the Township. Section 61 of the Michigan Planning Enabling Act (the "MPEA," Public Act 33 of 2008) requires Planning Commission review and approval of the location, character, and extent for the construction/purchase of new public streets, parks, open space, buildings, and other public facilities. This process is called a Section 61 Review. Before the Section 61 Review can be scheduled, the MPEA requires referral to the Planning Commission by the Township Board. Once referred, the Planning Commission will consider the request at its next meeting on November 13, 2017. The properties being considered for purchase are depicted on an attached map.

• MOVE to refer the five properties depicted on the attached map for potential purchase by the Land Preservation Advisory Board to the Planning Commission for a Section 61 Review in compliance with the Michigan Planning Enabling Act.

RE:

Master Plan

The public hearing for the 2017 Master Plan was held at the October 23, 2017 regular meeting of the Planning Commission. Following the public hearing, the Planning Commission voted (8-0) to approve the Master Plan, subject to the following three conditions:

- A revision to the Community Facilities map (Map #6, page 63) that changes the term "PA 116 site" found in the legend to "Farmland Preservation, Public Act 116."
- A revision to the Public Transit map (Map #4, page 49) that clarifies the transit routes around the Meridian Mall and Meijer.
- Revisions to the Acknowledgments page to expand the list of former Planning Commission members that worked on the Master Plan over the last few years.

The two maps referenced above have been updated and are included in the attached draft of the Master Plan. The revisions to the Acknowledgements page will be made, along with any other items identified by the Township Board, after the November 9, 2017 Township Board meeting.

A majority vote of the Township Board is required to approve the Master Plan. Since the Planning Commission has approved the Master Plan, if the Township Board would like to make any changes to the content of the plan (other than typographical or formatting), it must provide the Planning Commission with a statement of its concern(s), which the Planning Commission must consider and address. Each time the Planning Commission revises the content of the plan in response to Township Board concerns a new public hearing must be held.

Re:

Outdoor Gathering Permit

Recently, a township resident submitted an application to staff for an outdoor assembly license. A license was required under Chapter 38, Article V, Outdoor Assemblies, as the applicant anticipated 500 or more attendees. The applicant planned to hold the outdoor assembly at his residence. The parcel, zoned RA, was located in a setting that included single and multi-family homes nearby. The anticipated size of the gathering and its location concerned staff. Ultimately, the applicant did not pursue the assembly license. The applicant could have held the event without a license at the residential location provided there was less than 500 attendees. Had that occurred, staff anticipated concerns with noise, parking and other safety issues. Further, township staff would not have been able to give direction to the applicant to improve safety, site conditions and protect the neighborhood.

Staff asks, if the board wishes to proceed with an amendment? If so, staff will provide draft language at a future meeting.
